

CanGas® Medical Air System

The medical air supply system consists of a compressed air station, valves, pipelines and terminals.

Product features

- Meets the air quality requirements for medical, instrument, and dental air, and also can be configured separately for each system.
- Complete product system and a wide range of solutions; better meet the actual needs of medical air.
- Automatic operation, safe and efficient, no need for human supervision.

Technical specification

Product Model	Flow Rate Q (Nm ³ /min)	Outlet Air Pressure (MPa)
CAP-YSQT-1	0.1 ≤ Q ≤ 5	≥ 0.6
CAP-YSQT-2	5 ≤ Q ≤ 10	≥ 0.6

※The above are the models of medical air systems approved by the NMPA. For other specifications, please contact our company
